

Dear Parents,

This week in the *Bouncy the People Trainer* Program, your child is learning that if he or she truly believes s/he can learn something, s/he has a much better chance of mastering it.

Every chance you get, encourage your child or children to believe in themselves as learners and potential leaders. You can help them develop confidence about their ability to learn new things by countering comments that start with “I can’t,” with your firm statement that YOU BELIEVE THEY CAN do, whatever it is they need or want to do.

If you have access to an iPad at home, or through a friend or relative, sit with your child and ask them to show you the BELIEVE lesson (the third level). Ask them to tell you what they liked best about this lesson and to show you their artwork. Keep the beat and sing along at the words, “If I BELIEVE, I can.” If they do all the activities in level three, they will earn their third dog skateboarding badge. Let them know you are proud of that accomplishment and BELIEVE they can do whatever they want to do in life.

Sincerely,

P.S. To find out how to get the Bouncy app for free at home, go to the Bouncy website at bouncykids.net/parents.
